

THE 2008 PLATFORM OF THE MUSCATINE COUNTY DEMOCRATIC PARTY

ADOPTED MARCH 15, 2008

We, the Democratic Party of Muscatine County, believe that the principle of all governments is to do as a society that which we cannot do as individuals and to assure that each of us as individuals enjoy freedom without encroaching on the freedoms of others.

We also support the concept that we each have the right as citizens to the basics of a good life, including security, an adequate diet, decent shelter, access to sufficient health care, a quality education commensurate with our abilities and opportunities for meaningful work.

We also believe that those of us blessed with abilities that allow us to acquire wealth beyond our basic needs have an obligation to share a portion of our surplus with those who are less fortunate. We believe an equitable tax system is the fairest way to assure that all of us meet this obligation.

We want our government to work with the world community for the elimination of armed conflicts among nations, as well as the establishment of guarantees of basic human rights for all peoples. We believe in the power of diplomacy and dialogue, especially with the U.S. as a recognized leader in the world community.

For these reasons we support an activist government which intervenes on behalf of the individual when others attempt to encroach on our individual liberties or create an advantaged position for themselves or their interests.

This is why we support strong protection of the rights of all minorities, the free expression of ideas and free choice in our individual actions so long as they do not interfere with the lives of others.

This is also why we oppose those who seek power, money, and influence for their own purpose at the expense of others or who try to impose their own particular set of values upon the rest of us.

The remainder of this platform is an affirmation of these broad principles.

Our common beliefs in the good that citizens and government can do give us our purpose. Our diversity in opinions is our strength. Together we form the character of the Democratic Party. This Platform Report embodies those characteristics.

AGRICULTURE AND THE ENVIRONMENT - AE

Agriculture is the bedrock of Iowa's economy, culture, and heritage. Farming as a way of life has suffered under federal farm policy during the last decade. The environment has become a key concern. The following problems need to be addressed.

Livestock Management - LM

We support:

1. Aid for crop diversification by farmers.
2. Education programs for farmers and livestock breeders.
3. Preservation of our farmland, wilderness and wetlands.
4. Legislative review of the "nuisance" lawsuits against livestock operations passed by the Legislature in H.F. 519.
5. Giving county boards of supervisors and/or county zoning boards' authority to have review and final approval in the siting of large livestock confinement operations.
6. A modification in the tax system to give tax breaks to landowners and land users who enter into conservation agreements.
7. More restrictive control over environmentally unsound farming organizations.

Environmental Safe Energy - SE

We support:

1. Incentives for alternative energy agriculture.
2. Economic incentives to process waste rather than dispose of it in landfills.

Bottle Bill& Recycling - BB

We support:

1. Extending the Bottle Bill concept to other recyclable materials.
2. Legislation that requires Iowa manufacturers of durable goods to:
 - a. Label product parts as to their recyclability.
 - b. To establish resource recovery centers.
3. Use of recycled tire material in environmentally sound ways.

Environmental Enhancement & Regulation - ER

We support:

1. The gradual imposition (over a 20-year period) of revenue-neutral green taxes on emissions, products, or activities that are to be discouraged.
2. Severance taxes on virgin resources.
3. Defining commercial crime so that corporations are held more accountable for environmental damage.
4. Repeal of the tax law that allows the cost of litigation to be tax-deductible as a business expense.
5. Increasing funds for the Iowa Resource Enhancement and Protection Program.
6. Strengthening toxic emission limits on all disposal processes.
7. Greater responsibility on waste generators to recycle and reduce their amount of waste.
8. An economy in which industrial waste becomes a raw material for another process.
9. Repeal of the Iowa Anti-Stringency Rule for Air Quality.

Watershed Management - WM

We support:

1. More funding to local governments to build appropriate wastewater infrastructure.
2. Reinstating the wetlands review process with consideration for geographical differences and preservation/expansion of wetlands through the federal Conservation Reserve Program or other farm/non-farm programs.
3. An increase in provisions that deal appropriately with non-point source pollution runoff.

Sustainable Rural Development - SD

We support:

1. That all existing and future funds collected by the Iowa Department of Natural Resources for environmental, conservation or recreational use should remain under the control of the Department, rather than the State's General Fund.
2. Zoning flood plain areas for land-use activities (parks, open space, recreation, wildlife preserves, agriculture), which facilitate flood prevention and control and mitigate economic damage.

ECONOMY, COMMERCE AND LABOR - EC

The underlying problem with the economy is an extreme misdistribution of income between the working class and the capital owners. When a CEO can make 300 million dollars while an average worker's wages haven't even kept pace with

inflation, what results is a dysfunctional market economy starved for consumption spending. The average American has had to fuel his/her spending with debt obtained by borrowing on the equity of their home. That phantom equity has now evaporated.

Any system, including the market economy, that gets too far out of balance does not function properly. Certain constraints need to exist to keep the market economy from slipping into a dysfunctional state. Balance is the essence of stability. Nothing short of this will guarantee permanence.

Job Security - JS

We support:

1. An effective federally funded tuition assistance program targeted at professions in demand for all U.S. citizens.
2. Financial deterrents to prevent companies/factories from taking their businesses outside the U.S.
3. Eliminate labor arbitrage by canceling all Temporary Worker Visa programs (L-1, H1-B, etc.), and establish tax penalties for firms that expand their workforce above some threshold through outsourcing, or replacement hiring in foreign locations.
4. Fair trade agreements that ensure nations will offer decent wages, humane working conditions, and sound environmental policies.

Budget & Taxation – BT

We support:

1. Two year, 800 billion dollar emergency *Infrastructure Investment Jobs Creation Program* (IIJCP) aimed at building new interstate highways, mass transit systems, schools, bridges, public hospitals, libraries, and assorted public buildings.
2. Taxation of corporate profits at a higher rate for firms that exceed a threshold level of jobs outsourced to a foreign country.
3. Taxation at a higher rate on individual yearly income received from any corporation, not-for-profit organization, or any form of legal entity where the total income exceeds the U.S. average yearly median individual income by 200%.
4. Close loopholes and make it illegal for individuals and corporations to set up off shore entities to avoid paying U.S. taxes.
5. Extending the middle class tax cuts including child tax credit and marriage penalty relief.
6. Return to the income tax rates for upper-income Americans that we had in the 1990s.
7. A substantial reduction in personal residential property taxes for citizens

over 65 years of age who live on low fixed incomes.

8. Increase Iowa funding for "Aid to Dependent Children".
9. A balanced federal budget.

Worker's Rights & Safety – WR

We support:

1. Repeal of all legislation that inhibits the right's of individuals to organize under labor unions regardless of position or any other currently disqualifying classification.
2. Passage of the *Employee Free Choice Act* so that unions can organize for fair wages and safe working conditions.
3. Allowing workers to redress their worker compensation cases through the courts.
4. Increasing work-related death benefits.
5. Requiring insurers to pay all bills directly that result from an on-the-job injury, including rehabilitation service.
6. Requiring business to meet all state and federal labor laws.
